- (A) If a special meeting is conducted at the request of the applicant, the fees listed above will be doubled.
- (B) Escrow deposit fees shall be used to defray the cost of the Attorney, Planning and/or Engineering Consultants. If the Village is billed less than the deposit, the balance will be refunded upon completion of the project; if the billing is more than the deposit, the applicant will be notified that an additional deposit is required.
- (C) In a cases where an owner of property is required to install and maintain landscape materials, said owner shall observe the following standards: Section 1270.05 **Installation:** Landscaping shall be installed in a sound, workmanlike manner and according to accepted good planning procedures with the quality of plant materials as hereinafter described. Landscaped areas must be protected from vehicular encroachment, by such means as, but not limited to, wheel stops. If building or paving construction is completed during a planting season, then no certificates of occupancy will be issued unless the landscaping meets the requirements herein provided. If building or paving construction is completed in an off-planting season, the certificates of occupancy will be issued only after the owner provides a performance bond to ensure installation of required landscaping in the next planting season. Temporary certificates of occupancy will be issued only after the owner provides a performance bond to ensure installation of required landscaping in the next growing season.
