

Permit Application for Part 91 Soil Erosion and Sedimentation Control
 Village of Wolverine Lake, 425 Glengary Road, Wolverine Lake, MI 48390, 248-624-1710

Permit Application for Part 91 Soil
 Erosion and Sedimentation Control

Permit # _____
 Date Issued _____
 Expiration Date _____
 File Number _____

1. APPLICANT – MUST BE LANDOWNER

Name:			
Address			
City	State	Zip Code	County

2. LOCATION

Section	Town	Range	Township	City/Village	County
Subdivision	Lot No.	Tax I.D.	Street Address		

3. PROPOSED EARTH CHANGE

Property Type		<input type="checkbox"/> Residential	<input type="checkbox"/> Multi-Family	<input type="checkbox"/> Commercial
		<input type="checkbox"/> Industrial	<input type="checkbox"/> Land Balancing	
Describe Project				Size of Earth Change (acres or square feet)
Name of and Distance to Nearest Lake, Stream, or Drain		Date Project to Start	Date Project to be Completed	

4. SOIL EROSION AND SEDIMENT CONTROL PLAN (Refer to Rule 323.1703)

Note: 2 Complete sets of plans must be attached	Estimated Cost of Erosion and Sediment Control
	Plan Preparer's Name and Telephone Number/Area Code ()

5. PARTIES RESPONSIBLE FOR EARTH CHANGE

Name of landowner		Address		
City	State	Zip	Area Code/Telephone Number	
Name of Individual "On Site" responsible for earth change		Company Name		
Address	City	State	Zip Code	Area Code/Telephone Number

6. PERFORMANCE DEPOSIT (IF REQUIRED BY THE PERMITTING AGENCY)

Amount Required \$	<input type="checkbox"/> Cash	<input type="checkbox"/> Certified Check	<input type="checkbox"/> Irrevocable Letter of Credit	<input type="checkbox"/> Surety Bond
Name of Surety Company				
Address	City	State	Zip Code	Area Code/Telephone Number

I (we) affirm that the above information is accurate and that I (we) will conduct the above described earth change in accordance with Part 91, Soil Erosion and Sedimentation Control, for the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, applicable local ordinances, and the documents accompanying this application.

Landowner's Signature	Print Name	Date
Village of Wolverine Lake Designated Agent's Signature	Print Name Jeff Rondeau	Date

GENERAL CONDITIONS

In accordance with Rule 1709 promulgated under the authority of Part 91, Soil Erosion and Sedimentation Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, and in addition to the information on the attached plan(s) and special conditions, the following general conditions apply to the earth change authorized by this permit:

- Design, construct, and complete the earth change in a manner that limits the exposed area of disturbed land for the shortest period of time.
- Remove sediment caused by accelerated soil erosion from runoff water before it leaves the site of the earth change.
- Temporary or permanent control measures shall be designed and installed to convey water around, through, or from the earth change at a non-erosive velocity.
- Install temporary soil erosion and sedimentation control measures before or upon commencement of the earth change activity and maintain the measures on a daily basis. Remove temporary soil erosion and sedimentation control measures after permanent soil erosion measures are in place and the area is stabilized. ("Stabilized" means the establishment of vegetation or the proper placement, grading, or covering of soil to ensure its resistance to soil erosion, sliding, or other earth movement.)
- Complete permanent soil erosion control measures for the earth change within five calendar days after final grading or upon completion of final earth change. If it is not possible to permanently stabilize the earth change, then maintain temporary soil erosion and sedimentation control measures until permanent soil erosion control measures are in place and the area is stabilized.

SPECIFIC CONDITIONS

VILLAGE OF WOLVERINE LAKE
 425 Glengary Road
 Wolverine Lake, MI 48390
 Ph: 248-624-1710 Fax: 248-624-3536

**CONSTRUCTION SCHEDULE
 SOIL EROSION AND SEDIMENTATION CONTROL
 SHORT TERM PROJECT**

CONSTRUCTION ACTIVITY

(MONTH WORK TO BE STARTED)						
Mark critical areas (wetlands, trees to be saved, etc.)						
Perimeter Sediment control measures						
A.						
B.						
Remove trees						
Stockpile topsoil						
A. Stabilize						
B. Maintain						
Rough grade site						
Temporary erosion control						
A. Seeding						
B. Mulching						
Installation of Storm Outlets						
Stake Building						
Excavate footings/basement						
Install underground utilities						
Construct footings/foundations						
Construct superstructure						
Apply aggregate base to drives						
Final Grade						
Permanent erosion control						
A. Seeding						
B. Sodding						
C.						

Directions: At the top of the first column enter the month project to begin, and then complete other columns. Shade in boxes under the appropriate month, when work is to begin. If activity does not apply, do not shade in any boxes.

**VILLAGE OF WOLVERINE LAKE
SOIL EROSION CONTROL MEASURES – ACCEPTABLE
STANDARD
SEDIMENT CONTROL FABRIC**

EASY INSTALLATION

1. DIG A SIX INCH TRENCH ALONG THE INTENDED FENCE LINE.
2. EXCEPT FOR THE END POST, DRIVE ALL POSTS INTO THE GROUND AT BACK SIDE OF TRENCH AT RECOMMENDED INSTALLATION SPACING OF NOT MORE THAN TEN FEET APART.
3. LAY OUT SILT FABRIC ON THE UPHILL SIDE ALONG THE FENCE LINE.
